SECTION K - EGGS – DISPLAY RULES

- **Entry deadline – August 20 – No Late entries**
- **Competition Classes** - Junior (age 5-7), Junior (age 8-11 and Open 12+
- **Entry** - To be 3 eggs displayed on plates provided

MAIN EGG COMPETITION

- **EXTERNAL CHARACTERISTICS**
 - Large Eggs: Breed or Non-Standard & Color noted on entry card.
 - Bantam Eggs: Breed or Non-Standard & Color noted on entry card.
 - Waterfowl Eggs: Breed or Non-Standard & Color noted on entry card.
 - Non-Standard Eggs: If breed is known, can be noted on entry card & color.
NOTE: Non- Standard Eggs includes birds not accepted in the *APA Standard of Perfection*, Mixed breeds and those of unknown ancestry.
 - **Color** - White, cream, light brown (tinted), brown, mottled or speckled, blue, green, olive and plum. The color should be even. In the case of mottled or speckled eggs, regular mottles or speckles are preferred. **Mottled or speckled are shown according to their background color.** When a breed standard has stated a particular color, any variation from this should be penalized.
 - Shape - Ample breadth, with greater length than width. Bottom should not be too pointed and a circular or narrow shape is undesirable. The ideal shape is described as an elliptical cone. A cross-section at any point across the egg's girth should be a perfect circle.
 - **Shell Texture** – Smooth, free from lines or bulges, evenly limed, smooth at each end without roughness, porous parts or lime pimples.
 - **Freshness, Bloom, and Appearance** – Shells to be clean, without dull or stale appearance as appropriate for a new-laid egg. Shell surfaces may be shiny or matte, but free from blemishes such as stains or nest marks. Eggs may be washed in preparation, but not polished. Muscovy duck eggs often have a wax cuticle, which may be removed
 - **Matching and uniformity** – Eggs exhibited as a group of 3, to be uniform in shape, shell texture, size, color and appearance.
- **INTERNAL CHARACTERISTICS** – One egg is broken
 - **Yolk** – Rich, bright golden yellow, free from blood streaks or meat spots. Well-rounded and well raised from center of albumen. One uniform shade. Blastoderm or germ spot not discolored. There should be no sign of embryo development.
 - **Albumen** – This is clear with no sign of blood spots or cloudiness and preferably with no hint of color. Waterfowl albumen must be clear.
 - **Chalazae** – Each chalazae to resemble a thick cord of white albumen opposite each other and attached to the yolk, keep it to the center of the inner albumen.
 - **Airspace** – Small in size, about ½” (1.5cm) diameter, bantam egg about 1 ¾” (1cm), adhering to the shell.

- **JUDGING GUIDELINES - No scoring on entry card**
